

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

DIFFERENTIAL EQUATIONS COURSE

TASK 0306 (33 pages)

1. First Order Differential Equations	Pg. 2
The Order / The Degree / Linear Definition.	
2. Forming Ordinary Differential Equations	Pg. 3
Example 1: $y^2 = 6k(k - x)$	
Example 2: $y = A e^{-x} + B e^{-2x}$	
3. Boundary Conditions	Pg. 4
4. Solving First Order Differential Equations	Pg. 6
1. The Method of Separation of Variables	
Example	
2a. Homogeneous Equations	Pg. 7
Examples 1 and 2	Pg. 8
2b. Equations That Reduce to Homogeneous	Pg. 9
Examples 1 and 2	Pg.11
3. The Exact Equation	Pg.13
Example 1	Pg.14
Example 2	Pg.15
Integrating Factor	Pg.16
4. The Linear Equation	Pg.17
Examples 1 and 2	Pg.18
5. The General Linear Equation	Pg.19
Example	
6. Linear Equation with Constant Coefficients	Pg.20
Example 1	Pg.21
Example 2	Pg.22
Examples 3 and 4	Pg.23
7. Linear Inhomogeneous Equation with Constant Coefficients	Pg.24
8. Finding the Particular Integral:	
1. Method of Undetermined Coefficients	Pg.25
TYPE 1: $f(x) = a e^{bx}$	
Example 1	Pg.25
TYPE 2: $f(x) = a.\cos(bx)$ or $a.\sin(bx)$	Pg.26
Example 2	Pg.26
TYPE 3: $f(x) = a.x^p$	Pg.27
Example 3	Pg.27
Combination of Types: Example 4	Pg.28
2. Method of Variation of Parameters	Pg.30
Example	Pg.32

Workshop Task 0307:

Differential Equations w/s

(Not Included on the Standard Edition CD.)

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

THE D-OPERATOR COURSE

TASK 0308 (22 pages)

1. Definition of the D-Operator	Pg. 2
Rules of Differentiation	
2. The Polynomial Operator F(D)	Pg. 3
Rule 1: $F(D)e^{cx} = F(c) e^{cx}$	
Example 1	
Rule 2: $F(D)\{e^{cx} G(x)\} = e^{cx} F(D + c) G(x)$	
Example 2	
Rule 3: $F(D^2) \sin(cx) = F(-c^2) \sin(cx)$	
Example 3	
3. Definition of the Inverse Operator D⁻¹	Pg. 3
4. Finding the Particular Integral using the D-Operator	Pg. 4
First Order Differential Equation	
Second Order Differential Equation 1	Pg. 5
Second Order Differential Equation 2	Pg. 6
Example	Pg. 8
5. Euler's Equation	Pg. 9
Example 1	Pg.10
Example 2	Pg.12
6. The General Linear Second Order Equation	Pg.14
Example 1	Pg.14
Example 2	Pg.15
Example 3	Pg.16
Standard Examination Type Questions:	
Question 1	Pg.17
Question 2	Pg.19
Question 3	Pg.20
Investigation 14: "Particular Integral"	Pg.22

For Simultaneous Differential Equations:

Go To File 0308x

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

Simultaneous Differential Equations

Task 0308x (20 pages)

1. Simultaneous Differential Equations:

Example 1 Pg. 1

Example 2 Pg. 2

2. Standard Examination Questions:

Question 1 Pg. 4

Question 2 Pg. 5

Question 3 Pg. 7

Question 4 Pg.10

Question 5 Pg.12

Question 6 Pg.16

Question 6: **Final Note** Pg.19

The Study Guide for Series Solutions of Differential Equations Course follows on the next page

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

Series Solutions of Differential Equations Course

Task 0309 (27 pages)

1. The Leibnitz-Maclaurin Method	Pg. 2
Example 1	Pg. 2
2. The Leibnitz-Taylor Method	Pg. 4
3. The Leibnitz-Maclaurin Method:	
Example 2	Pg. 5
4. The Method of Frobenius	Pg. 8
Definition of Points / The Series Solution.	
Example 1	Pg. 9
Example 2	Pg.13
5. Investigation 15: Frobenius Study	Pg.17
6. The Method of Frobenius:	
Example 3(a)	Pg.18
Example 3(b)	Pg.20
Example 4	Pg.24

Series Solutions of Famous Differential Equations

Task 0310B (14 pages)

Bessel's Equation

1. Bessel's Equation	Pg. 1
Solving by using the Method of Frobenius.	
Gamma Functions	Pg. 4
2. Bessel Function of the First Kind	Pg. 5
With Integer ν	Pg. 6
3. Investigation 16: Bessel Functions	
"The Weber Function" (Part 1)	Pg. 7
4. The Bessel Functions: $J_0(x)$ and $J_1(x)$	Pg. 7
5. Bessel Functions:	Pg. 8
Example 1	
6. Investigation 17: Bessel Functions	
"The Weber Function" (Part 2)	Pg. 9
7. Bessel Functions:	
Example 2a	Pg.11
Example 2b	Pg.12
Example 3: Expressing $\sin x$ & $\cos x$ in terms of Bessel Functions.	Pg.13

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

Series Solutions of Famous Differential Equations

Task 0310C (11 pages)

Chebyshev's Equation

- | | |
|---|----------------|
| 1. Chebyshev's Equation:
Solving by using the Method of Frobenius. | Pg. 1 |
| 2. The Chebyshev Connection:
Matching the Solution from the Method of Frobenius
with Quoted Results. | Pg. 4 |
| 3. Chebyshev Polynomials
Finding the First Ten Chebyshev Polynomials
Tabulated Results | Pg. 8
Pg.11 |
| 4. Investigation 18:
"The Chebyshev Connection"
Derive the Summation Formula for the Odd n Series. | Pg.11 |

Series Solutions of Differential Equations Used in Quantum Mechanics

Task 0310H (14 pages)

Hermite's Equation

- | | |
|--|-------------------------|
| 1. Hermite's Equation:
Solving by using the Method of Frobenius | Pg. 1 |
| 2. Hermite's Polynomials
Finding the First Ten Hermite Polynomials
Tabulated Results | Pg. 4
Pg. 5 |
| 3. Rodrigues' Formula for the Hermite Polynomials | Pg. 6 |
| 4. Generating Hermite Polynomials using
Rodrigues' Formula
Generating the First Ten Hermite Polynomials
Tabulated Results | Pg. 8
Pg.11 |
| 5. Sigma Form of the Series Solution of Hermite's Eqn.
Even n Solution
Odd n Solution
Summary of Results | Pg.12
Pg.13
Pg.14 |

The Vulnavian Degree Network Level 3

Differential Equations - Study Guide

Series Solutions of Differential Equations Used in Quantum Mechanics

Task 0310La (9 pages)

Laguerre's Equation

- | | |
|--|-------------------------|
| 1. Laguerre's Equation:
Solving by using the Method of Frobenius | Pg. 1 |
| 2. Laguerre's Polynomials
Generating the First Ten Laguerre Polynomials
Tabulated Results | Pg. 3
Pg. 5 |
| 3. Sigma Form of the Series Solution. | Pg. 5 |
| 4. Investigation 19: "Laguerre's Equation" | Pg. 5 |
| 5. Rodrigues' Form of the Laguerre Polynomials
Proof that the Rodrigues Form is a Solution.
Generating the First Ten Polynomials.
Tabulated Results | Pg. 6
Pg. 7
Pg. 9 |

Task 0310L (18 pages)

Legendre's Equation

- | | |
|--|---|
| 1. Legendre's Equation:
Solving by using the Method of Frobenius | Pg. 1 |
| 2. Legendre Polynomials
Generating the Polynomials for even L
Generating the Polynomials for odd L
Tabulated Results | Pg. 3
Pg. 4
Pg. 5
Pg. 5 |
| 3. Rodrigues Formula for Legendre Polynomials
Generating the Polynomials
Tabulated Results | Pg. 6
Pg. 6
Pg. 8 |
| 4. Legendre's Equation: Examples
Example 1a:
Proof that the Rodrigues Form is a Solution.
Example 1b
Example 1c
Example 1d
Example 2a: Transformation using $x = \cos\theta$
Example 2b | Pg. 9
Pg. 11
Pg. 12
Pg. 14
Pg. 16
Pg. 17 |
